58 responses

13. Curriculum effectively incorporate technology and digital literacy skills

58 responses

14. The curriculum provide a conducive learning environment for the successful completion of the course

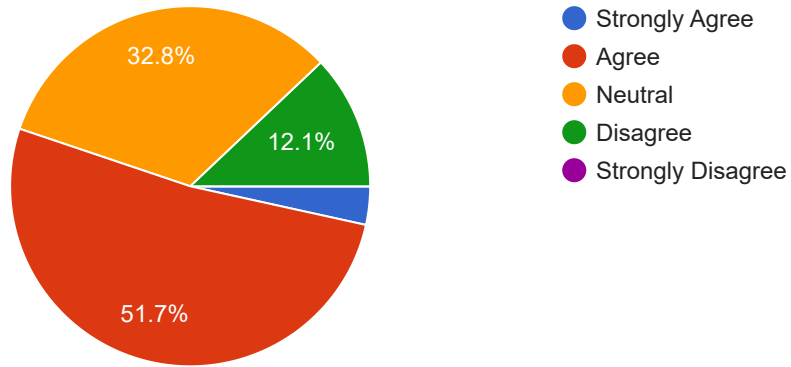

58 responses

15. Curriculum enhanced the employability

58 responses

Any suggestion for curriculum modification & improvements

13 responses

The paper ICT should have been included in the 2nd semester. In the current semester system ICT is in the last semester and after the completion of teaching practice. Which is very illogical.

Nil

The curriculum should be modified. Current curriculum doesn't help in the current scenario

More time should be given to teaching practice

No

Assessment should be CCE.

Add more new theories of psychology instead of old outdated theories.

Need to give importance to practical learning.

Modify the syllabus, reduce the course periods

The curriculum should focus more on practical experience than merely on theories .

Nothing

ICT should be incorporated effectively during first year.

Nil

Include technology integrated course before teaching practice and try to reduce the out dated teaching aids preparation like still model, working model etc.. and emphasis on digital skills for the ' digital natives '
